## **USD 511 Enrollment Projection & Nonresident Enrollment Report**

Per K.S.A 72-3123, 72-3124, and 72-3126, before May 1st of each year, the superintendent of schools or designee will develop and submit a recommendation to the board of education declaring the projected enrollment and number of open seats available to nonresident students. By June 1 of each year, the district will publish on its website, at a minimum, the number of students expected to attend the district in the next school year and the number of open seats available to nonresident students. Included in this report are recommended actions the board of education is asked to take to fulfill such statutory requirements.

## **Enrollment Projection Determination**

Outlined in this report is a collection of data and considerations used to prepare a recommendation to the Board of Education to approve enrollment projections and the number of seats available to nonresident students.

Total Student Bldg Difference		4	14	-4	-3							
% difference from prior year		2.8%	9.6%	-2.5%	-1.9%							

## **Other Enrollment Considerations**

It is critical that the district maintain a student-teacher ratio that maximizes learning while remaining fiscally responsible. Additionally, the district must maintain appropriate physical space to efficiently and effectively educate students. These physical spaces may include but are not limited to classrooms, hallways, commons areas, dining, playgrounds, parking, and offices. District goals for the appropriate student enrollment range for each district school is outlined in Table 1.3.

**Table 1.3 - District Enrollment Goals** 

			Student-Teacher Ratio Goal (PK-6) / Grade Cohort Goal (7-12)											
School	Recommended Capacity	KG	01	02	03	04	05	06	07	08	09	10	11	12
Pre-K	18													
Puls Elementary		18	18	18	18	18	18	18	18	18				
High School											18	18	18	18
	TOTAL	18	18	18	18	18	18	18	18	18	18	18	18	18

In collaboration with the city/county, the district projects that student enrollment will remain stable due to current housing, industrial, and commercial changes.

A review of county and state birth rate trends suggests that the enrollment of USD 511 could remain stable over the next 5 years.

There are a number of student programs throughout the district that require specialized resources, including but not limited to staffing, physical space, equipment, technology, and training. It is critical for effective student learning and staff support that these programs do not exceed the maximum capacity for which the district has adequate resources. These programs and the current hourly enrollment are outlined in Table 1.5.

Table 1.4 - Program student enrollment (Grades 6-12)

			Hourly Enrollment

## **Student Enrollment Projections and Capacity**

Enrollment projections incorporate all of the data identified in this report to the best of our ability and in order to operate at maximum effectiveness and efficiency.
